

Natural latex, entirely organic

For latex lovers, a 100% natural, durable and adjustable core. Offers a delicate and soft sleep experience.

Latex core, made from the sap emulsion of different plants. Among its benefits, provides excellent elasticity, it is water repellent, and insulates to avoid peak temperature and electricity.

Cotton is one of the most breathable and hydrophilic vegetable fabrics. Indicated to avoid excess moisture. Organic cotton from sustainable sources.

Vegan seal. This label guarantees that Duna model does not contain components with animal origin, considering all the stages production and processing that involved in its elaboration.
